

e-ATM

*An ideal solution for
co-operative and rural banks*

Datanet is pleased to offer e-ATM – a complete ATM solution:

- No more running around between ATM vendor, switch vendor, card vendor, Visa, MasterCard, etc.
- We offer everything you need: ATMs, cards and service
- Drastically reduced cost-of-ownership
- Drastically reduced operating costs
- Absolutely fraud-proof: smart card based strong authentication
- Smart cards sourced from [Axalto](#) (formerly Schlumberger) – world leaders in smart card technology
- Smart cards are hybrid (i.e., contain magstripe also) – to facilitate legacy applications on the same card
- Can interface to TBA software or Core Banking Solution
- Communication with Bank Host and ATMs is based on the latest [SOAP](#) protocol
- Communication between ATMs, Bank Hosts and Datanet’s Anyflow Server over a highly secure VPN
- Online and instant reconciliation of cash withdrawal transactions – a Datanet innovation
